FACE Forward Recovery Partnership

This service provides free health and wellbeing courses to residents of the Knowsley area and beyond. Courses are co-designed and co-delivered by volunteers and people with lived experience of mental health issues. By doing this we aim to empower the people in our communities to play an active role in generating better health and wellbeing outcomes for themselves and future generations.

FACE Forward offers both social and educational prescribing to help alleviate symptoms of poor mental health that complements medical interventions provided by GPs or mental health services. Social and educational prescription is an extremely important and effective way to combat some of the personal, social and economic issues that can lead to poor mental health.

For information about our FACE Forward Recovery Partnership courses please contact:
